UNIT: Ratio					
0,90 - 0,99					
= Threshold					
The antibodies indicate humoral immune responses against Borrelia burgdorferi sensu stricto + B.b. afzelii + B.b. garinii.					
The Tickplex Basic ELISA is a screening test for Borrelia pathogen-specific IgG and IgM antibodies and contains an antigen for persistent forms (round bodies) of Borrelia burgdorferi.					
Please cross-reference this with the results of EliSpots/i-Spots tests and the CD57+ NK cell test that you may have done.
